

2026

# SANTA CRUZ

# Bring more. Do more. Live more in the Hyundai Santa Cruz.

Nothing gives you more ways to adventure, because nothing else is quite like the Hyundai Santa Cruz. This sport adventure vehicle combines the room and refinement of a 4-door SUV with the cargo-hauling capability of a pickup. So it's up for whatever you come up with.

Filled with functional innovations and available with potent turbocharged power, Santa Cruz is big enough for your family, friends and cargo. Yet compact enough to fit into your garage or parallel parking spaces. You'll enjoy its nimble handling as well as the ability to reach campsites far off the beaten path thanks to available HTRAC All Wheel Drive.

But Santa Cruz isn't all function. It's also full of style. You see it in the crisp, geometric lines of its available 20" alloy wheels and the repeating pattern of its bold front fascia.

You'll see it most brightly as that pattern becomes illuminated with the shine of ten LED Daytime Running Lights that frame the grille to its fenders.

That forward-looking style continues inside with the clean, horizontal lines of modern architecture – combined with the convenience of modern technology. Like an available curved dual 12.3" display with a digital instrument cluster. You can lock, unlock and start your Santa Cruz using the standard Proximity Key or your smartphone with available Digital Key 2 Touch.<sup>1</sup>

When you consider Santa Cruz is assembled at our plant in Alabama – along with the fact that Brand Keys has ranked Hyundai #1 in customer loyalty 16 years in a row – the possibilities in a 2026 Santa Cruz really do seem endless.<sup>2</sup>

Vehicle shown with aftermarket accessories. Always properly secure all cargo.

# More action. All hero.

Thanks to a 191-horsepower engine with direct-injection technology, Santa Cruz is an action hero that delivers fuel efficiency and quick acceleration. Want more power underfoot? Santa Cruz XRT and Limited let loose a turbocharged 281-horsepower engine sporting 311 lb-ft of torque. Add an 8-speed Automatic Transmission with paddle shifters and HTRAC All Wheel Drive, and these models match their power with capability to carry out your biggest plans.

Explore even further with Santa Cruz XRT's Terrain Mode Select for driving in Snow, Mud and Sand – along with aggressive approach angles and all-terrain tires. Got a load to haul? Self-leveling rear shocks add stability with heavy cargo in your Santa Cruz's bed. Got toys to tow? The 2.5L 4-cylinder engine features a maximum towing capacity of up to 3,500 pounds. Turbo AWD models can tow up to 5,000 pounds.<sup>3</sup> A tight turning radius makes Santa Cruz an action hero in the city, too – nimble in traffic and easy to park in tight spots.

# More angles on safety.

Hyundai SmartSense uses an array of sophisticated safety sensors and technologies to monitor your surroundings from nearly every angle.<sup>4</sup> Included in this arsenal is an available Forward Attention Warning feature that uses a driver-facing camera to watch for driver fatigue.<sup>5</sup>

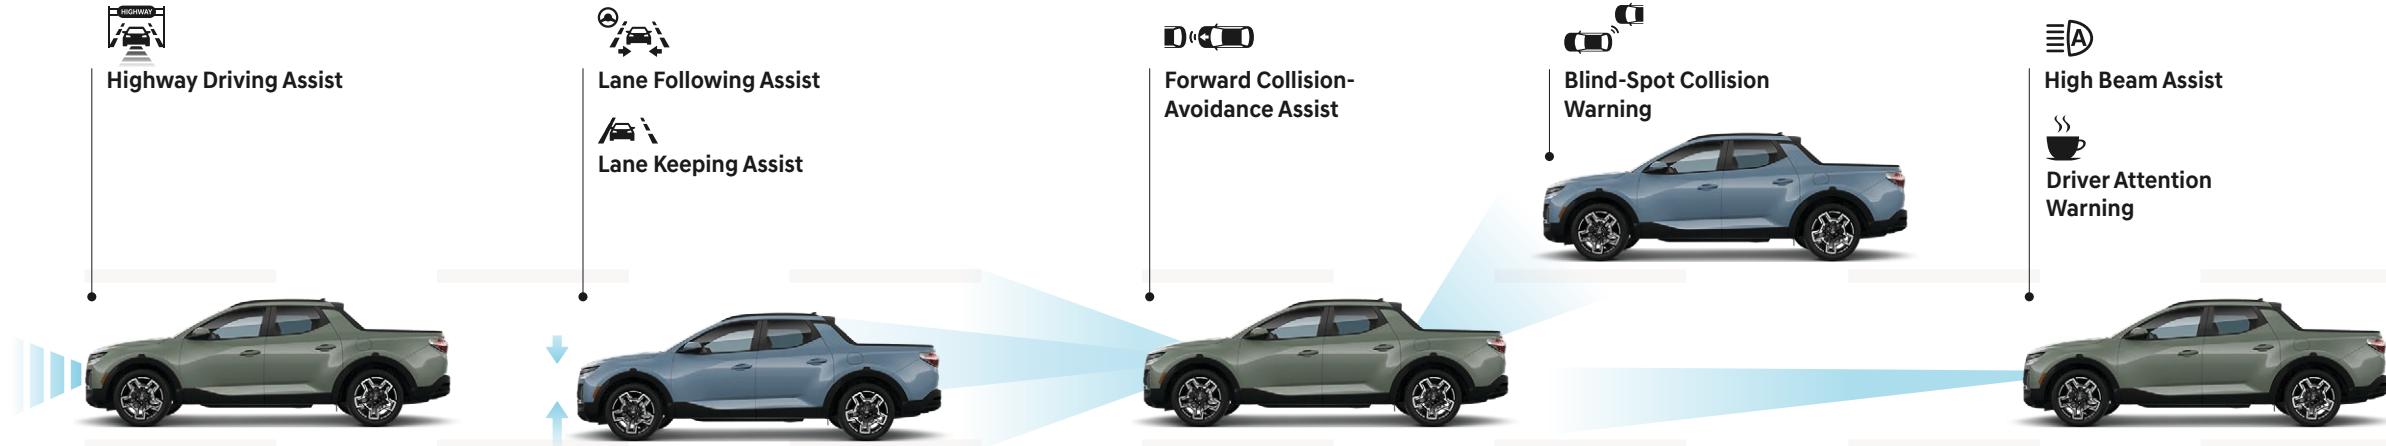

This heightened sense of security is enhanced with a feature at your fingertips. You'll feel haptic feedback through the steering wheel whenever Lane Keeping Assist<sup>6</sup> or Blind-Spot Collision Warning<sup>7</sup> issue an alert. Rear Cross-Traffic Collision-Avoidance Assist,<sup>8</sup> a rearview camera and an available Surround View Monitor<sup>9</sup> help you navigate challenging parking maneuvers all around town.

Out on the highway? Santa Cruz XRT and Limited enhance your safety further with a Blind-Spot View Monitor that displays live video in the instrument cluster from either side of your vehicle once the turn signal is activated. Rest assured, vehicles in your blind spot won't stay hidden.<sup>10</sup> Intelligent Speed Limit Assist and Navigation-based Smart Cruise Control with Curve Control team up to automatically adjust your cruising speed for speed limit changes and bends in the road.<sup>11</sup> Smart Cruise Control 2 can bring you to a complete stop if traffic ahead comes to a standstill,<sup>12</sup> while Highway Driving Assist helps maintain a safe cruising distance from vehicles in front as it keeps you centered in your lane.<sup>13</sup>

# Keep connected and carry on.

Open any of its four doors, and Santa Cruz welcomes you to an interior designed around modern comfort and connectivity. With its clean lines, the feeling is remarkably open and relaxing – even though it's filled with modern technologies like an available curved dual 12.3" digital display. Enjoy wireless Apple CarPlay® and Android Auto™ integration,<sup>15</sup> and connect two phones to the audio system at once via Bluetooth® streaming. How will you charge all those digital devices? With dual front and 2nd-row USB-C ports and an available wireless phone charger.<sup>16</sup>

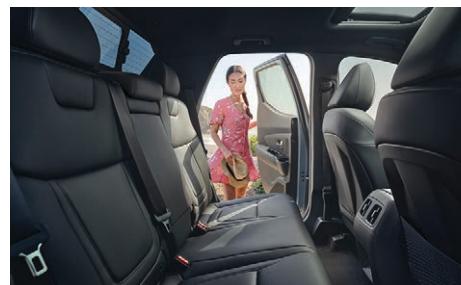

Control over Santa Cruz Limited's Bose® premium audio system is at your fingertips through the center console touchscreen, intuitive physical controls or convenient steering wheel buttons. You can even use the sound of your voice, thanks to Dynamic Voice Recognition that lets you switch SiriusXM® channels using verbal commands<sup>17</sup> – or plot your course via the high-resolution navigation system.

Santa Cruz's cargo bed puts capability at your command, too. Whether your cargo is bulky, muddy or tall, Santa Cruz is ready to haul.<sup>18</sup> Need extra room? Put the tailgate down to extend the bed. Integrated steps in the rear bumper also make your cargo easy to access.

And how cool is this: In the cargo bed floor is a compartment with a drain that can be used for dry storage – or filled with ice to serve as a cooler. An available 115-volt outlet lets you power your air pumps, coffee grinders and other campsite essentials, while an available retractable/lockable tonneau cover keeps your valuables in the cargo bed covered.

Wide 12.3" touchscreen display with Android Auto™

2nd-row 60/40 split tip-up seat cushions

Available lockable tonneau cover

Sidewall storage and available LED bed lighting

USB-C ports: Front (1 data/charge + 1 charge)

SANTA CRUZ Limited in Black Leather

# Introducing Bluelink+: No fees. No trial. No worries.

With the introduction of Bluelink+, Hyundai becomes the first automotive brand to offer its suite of connected car features to new car purchasers at no extra cost. Bluelink+ is complimentary with the purchase of your new 2026 Santa Cruz.<sup>19</sup>

Bluelink features technologies designed to help keep you safe – from automatic collision notifications and automatic emergency assistance if your airbags deploy, to enhanced roadside assistance that sends your exact location to a roadside assistance associate.<sup>20</sup> Bluelink also includes helpful maintenance features like remote diagnostics and monthly vehicle health reports. All complimentary with your 2026 Santa Cruz new-vehicle purchase for the life of the supporting wireless network technology.<sup>21</sup>

The MyHyundai with Bluelink app turns your compatible smartphone, smartwatch or smart home assistant device into a Bluelink remote control that can unlock your Santa Cruz's doors and start the engine and climate controls before you walk out the door.<sup>22</sup>

Starting your Santa Cruz remotely, or with the available Digital Key 2 Touch,<sup>23</sup> also retrieves radio presets and available digital instrument cluster preferences using your Bluelink personal profile. Digital keys can be shared with a secondary driver or a guest driver – as the primary driver, you control when a shared key can be used. You can also pause or end shared-key access at any time.

## Automatic Emergency Assistance

Bluelink offers you 24/7 SOS Emergency Assistance as well as Automatic Collision Notification that can call for help if you are in an accident where your vehicle's airbags deploy.<sup>20</sup>

## On-Demand Diagnostics

You can run vehicle diagnostics from your MyHyundai with Bluelink app, report issues at the press of a button, and receive monthly vehicle health reports or maintenance reminders by email.

## Driver Profile Management

Save your navigation searches, radio presets and driver seat/side mirror settings to your secure Bluelink account, and you can remotely update and push them to your Hyundai.

## Remote Vehicle Controls

Use your smartphone, smart speaker or wearable device to remotely start your Hyundai's engine, set the cabin temperature, activate the heated front seats and more.<sup>24</sup>

## Remote Vehicle Status

Wondering how much fuel is in the tank? If your Hyundai's doors are unlocked? Your MyHyundai with Bluelink app knows the answers to these questions and more.

## Hyundai Pay

Paying for fuel or parking is easy with the Hyundai Pay feature. It lets you find and complete payments for fueling or reserve parking directly from your vehicle touchscreen.<sup>25</sup>

Our commitment to Hyundai owners does not end with the transfer of keys. Wherever the road takes you, we have got your back with Hyundai Owner Assurance, an umbrella of services and benefits that includes America's Best Warranty, 24/7 Roadside Assistance, innovative safety and car care features... and more.

America's Best Warranty claim based on total package of warranty programs. See your Hyundai dealer for LIMITED WARRANTY details and HyundaiUSA.com/Assurance for Owner Assurance details and limitations. While the information contained in this brochure is based on the latest information available at the time of publication, specifications and equipment can change. Feature comparisons based on competitor information available at the time of publication. Although the information in this brochure is believed to be correct, accuracy cannot be guaranteed. No warranty or guarantee is being extended in this brochure, and Hyundai reserves the right to change product specifications and equipment at any time, without notice, without incurring obligations. Some vehicles are shown with optional equipment. Specifications apply to U.S. vehicles only. Please contact your Hyundai dealer or visit HyundaiUSA.com for current vehicle specifications or details on any of the programs or services listed here.

## Footnotes

<sup>1</sup>Digital smartphone key requires a compatible smartphone and an appropriately equipped Hyundai vehicle. Not all smartphones are compatible. Hyundai vehicle must be equipped with smart key with push-button start, wireless device charging, and Audio Video Navigation System 5.0 (or newer) or Display Audio 2.0. Tap to lock/unlock function works on front doors only. Requires MyHyundai with Bluelink app and active Bluelink account. Please visit [www.MyHyundai.com](http://www.MyHyundai.com) for information on compatible devices. Features and specifications subject to change. See your Owner's Manual for additional details and limitations. <sup>2</sup>Based on Brand Keys 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024 and 2025 Customer Loyalty Engagement Index®. <sup>3</sup>Towing capability varies by configuration. 5,000-lb maximum towing capacity requires SANTA CRUZ XRT or Limited trim and installation of aftermarket trailer brake controller and trailer brakes. 3,500-lb maximum towing capacity requires SANTA CRUZ SE, SEL or SEL Activity trim and installation of aftermarket trailer brake controller and trailer brakes. See Owner's Manual for proper use and additional information. <sup>4</sup>Safety features vary by model and trim level. For details, refer to the Features chart in the back of this brochure or visit [HyundaiUSA.com](http://HyundaiUSA.com). <sup>5</sup>Forward Attention Warning helps monitor the driver's eye position using an infrared camera and provides an audible warning if it detects a potential lack of driver attention. It does not detect and provide an alert in every situation. It is the driver's responsibility to remain alert at all times. See Owner's Manual for details and limitations. <sup>6</sup>Lane Keeping Assist operates only when the lane markings are clearly visible on the road. It will not work under all circumstances and will not prevent loss of control. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. It uses a camera in the upper windshield area, so it is imperative this area be free of blockage such as stickers, dirt, snow, tinting material, markings and labels. Avoid putting objects on the dashboard that may reflect light or images onto the system camera area. See Owner's Manual for details and limitations. <sup>7</sup>Blind-Spot Collision Warning (BCW) assists the driver by warning of other cars in the blind-spot region. There are limitations to the function, range, detection and clarity of the system. It will not detect all vehicles or objects in the blind spot. Its operation depends on the size, distance, angle and relative speed difference between your Santa Cruz and other vehicles. BCW may not operate if sensors are obscured in any way. BCW is a supplemental system, and the driver must still be attentive and exercise caution when driving. It is the driver's responsibility to be aware of the surroundings and ensure it is clear before changing lanes or directions. See Owner's Manual for details and limitations. <sup>8</sup>Rear Cross-Traffic Collision-Avoidance Assist (RCCA) is designed to notify drivers of approaching cross-traffic behind the vehicle. When another vehicle is detected while your car is backing out of a parking spot, it provides audible and visual display warnings and applies braking if it senses a collision is imminent. RCCA is active when your car is in reverse gear and backing at a speed less than 6 mph. It only engages during the first activation of reverse gear from park and may not detect all vehicles. Never rely exclusively on RCCA. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for details and limitations. <sup>9</sup>The Surround View Camera System is a parking support system. The Surround View Monitor cannot completely eliminate blind spots, may not detect every object, and does not warn of moving objects. Always check your surroundings before moving your vehicle. See Owner's Manual for details and limitations. <sup>10</sup>The Blind-Spot View Monitor (BVM) assists the driver in changing lanes by providing a live view of the blind spots on either side of the vehicle and sounding an audible alert if another vehicle is detected. The turn signal must be activated, and other system limitations apply. Do not rely exclusively on BVM. It is the driver's responsibility to be aware of the surroundings and ensure it is clear before changing lanes or directions. See Owner's Manual for details and limitations. <sup>11</sup>Navigation-based Smart Cruise Control (NSCC) is not a collision-avoidance or warning device. NSCC can help adjust the vehicle's speed based on posted speed limits and upcoming curves in the road. NSCC is limited by the information in the vehicle's navigation system, and it cannot react to recently changed speed limits, construction zones and changes in road conditions not covered by navigation data. NSCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. Driver remains responsible to slow or stop the vehicle to avoid a collision. NSCC initiates a full stop when the traffic ahead stops and reengages if the vehicle ahead moves forward within 3 seconds. See Owner's Manual for details and limitations. <sup>12</sup>Smart Cruise Control 2 (SCC2) is not a collision avoidance or warning device. SCC2 is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. See Owner's Manual for further details and limitations. <sup>13</sup>Highway Driving Assist (HDA) is for highway use only and helps keep your car centered in its lane while maintaining a safe distance from the vehicle ahead. Lane markings must be clearly visible on the road. HDA should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA will not work under all circumstances and will not prevent loss of control. Driver remains responsible to slow or stop the car to avoid a collision. See Owner's Manual for details and limitations. <sup>14</sup>Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program ([www.nhtsa.gov](http://www.nhtsa.gov)). <sup>15</sup>Apple® is a registered trademark of Apple Inc. Android Auto™ is compatible with Android™ phones running Android 5.0 or higher. Android Auto may not be available on all devices and is not available in all countries or regions. Additional apps may be required. Android and Android Auto are trademarks of Google LLC. <sup>16</sup>Qi wireless charging function is based on smartphone compatibility and/or specific accessory cases. <sup>17</sup>Speak in a normal voice and minimize background noise for best results. See Owner's Manual for further details and limitations. <sup>18</sup>Always properly secure all cargo. <sup>19</sup>Bluelink+ is available to purchasers and lessees of new 2026 and newer Bluelink-equipped Hyundai models. Bluelink+ requires an active Bluelink subscription agreement subject to the Connected Services Terms and Conditions. Only use Bluelink features and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. <sup>20</sup>Bluelink agents will contact existing emergency service responders. <sup>21</sup>All Bluelink services rely on digital wireless telecommunications technology outside of our control and in the control of the wireless carriers who provide the telecommunications technology. 4G LTE cellular networks are controlled and maintained by third-party wireless carriers. Telecommunication technologies have been known to change over time. If and when these networks change and discontinue services, or the underlying technology required to support Bluelink is obsolete, then the connected services will not work and we will be forced to cancel impacted subscription services. <sup>22</sup>Requires active Bluelink Advanced subscription (complimentary for the original owner). Remote climate control available on properly equipped models with fully automatic temperature control. Remote stop only available when in remote start mode. <sup>23</sup>Near Field Communication (NFC) digital key requires a compatible iPhone®, Apple Watch®, Google Pixel or Samsung Galaxy® phone. Not all Android, Apple or Samsung devices are compatible. Digital key sharing requires an active Bluelink Advanced subscription (complimentary for the original owner). See your Owner's Manual for details and limitations. <sup>24</sup>Dual automatic temperature control and heated front seats not equipped on SANTA CRUZ SE. <sup>25</sup>Available on SANTA CRUZ Limited trim. Hyundai Pay is available on select 2021-2026 model year Hyundai vehicles equipped with Bluelink and touchscreen navigation. Requires an active Hyundai Bluelink mobile app account, subject to the Connected Services and Hyundai Pay Terms and Conditions. Cellular and GPS coverage is required. Only use Bluelink features and corresponding devices when safe to do so. Valid Visa, MasterCard or American Express credit card must be linked to Hyundai Pay. Credit card eligibility and terms are determined by the card issuing bank. Hyundai Pay is currently accepted at select gas stations, charging stations and parking facilities (collectively, "Merchants") in the U.S. Participating Merchants may not operate in all states or locations. Additional Merchant terms and fees may apply. Features, specifications, fees and availability are subject to change. Visit [Owners.HyundaiUSA.com](http://Owners.HyundaiUSA.com) for more information.

### Hope comes standard on every Hyundai.

Each time we sell a Hyundai, a portion goes to Hyundai Hope On Wheels® to help find a cure for childhood cancer. Over the last 27 years, Hyundai Hope On Wheels has donated \$275 million to pediatric cancer research. Hope is our greatest feature. And it comes standard on every Hyundai.

For more information, please visit [HyundaiHopeOnWheels.org](http://HyundaiHopeOnWheels.org).
